FRENCH AND GERMANS CLASH ON THE CONGO

London, October 5.—Letters received in London by commercial firms with interests in the Belgian Congo, report that French and German traders have clashed at a number of places with some fatalities.

The Belgian government, the letters add, has placed guns on the boats on the Congo in order to resist German attacks.

asked to go to the headquarters building where an automobile was drawn up with two officers, apparently French, occupying the front seat. Behind them were two supposed gendarmes with a manacled civilian between them. The staff officer said: "This is the reason for our severity. These five men are German officers who were captured today near the firing line."

Allied Forces Keep Hammering At the Right Wing of Germans; Climax Bound to Come Soon

London, October 5.—General Von Kluck, reinforced with troops from the German center, continues to make a determined stand against the attempt of the allies to outflank him.

The French, who yesterday reported that the allies had resumed the offensive, announced today that the battle to the north of the Oise, which commenced seriously about September 25, continues with great violence with no decisive result and that at certain points the French troops have had to yield ground.

The Germans, in their report, issued last night, say the battle is proceeding successfully for them.

CRISIS NEAR FOR GERMANS.

Both in London and in Paris there is the greatest confidence, although some surprise is displayed at the success of the Germans in preventing the outflanking movement. There is a feeling, however, that the Germans cannot extend their line much farther north without weakening it at some point.

Along the rest of the line the French communication says there has been no change. Therefore the progress in the region of Soissons and Woerth, reported Sunday night, either has satisfied them for the moment or they have been checked by the Germans. Of the fighting here, as on their right, the German report says it is proceeding favorably for the German army.

Progress by either side must be extremely slow, for after every advance, no matter how slight, the troops making it must entrench themselves for protection against the shells from the enemy's guns, posted in strong positions from one end of the line to the other.

GERMANS ROUTED IN EAST PRUSSIA.

The defeat of the German army which invaded Russia from East Prussia appears, from Russian accounts, to have been even more decisive than previously stated. According to the Russian account, the German army was routed completely with a loss of 70,000 men, and have been forced to abandon everything.

The Russians now are moving forward with the object of advancing to East Prussia. This victory, if it is as complete as reported, is of the greatest importance to the Russians, as it will prevent the Germans from undertaking from land and sea operations which would have compelled Russia to turn at least a part of its attention in this direction.

General Rennenkampf apparently drew a wedge between the two German forces which were advancing upon Druskenki and Osovetz and brought about the battle of Augustow, which resulted in a Russian victory. If the Germans have not retired from the

left bank of the Niemen river at Druskenki, their defeat at Augustow must have forced them to do so.

No news has been received today from the Russian and Galician battlefields, and probably the main armies have not come together there. A big battle cannot be expected for some time, however, as on the Russian front the main armies are moving forward and will meet Russian troops.

**THOUSANDS FLEE
BEFORE RUSSIANS.**

Before the Russian advance in Galicia the peasants are fleeing the country and it is reported that 20,000 of them have reached Bohemia.

The sanitary department of Vienna reports that four cases of Asiatic cholera have occurred among the troops returning from Galicia, but that all have recovered.

At Antwerp, the official report says, the situation in the fortified position remains unchanged.

Fighting continues also in the northeast and the Anglo-French fleet has succeeded in destroying Leticia, an outer defense of the Austrian seaport of Cattaro.

While the Serbians and Montenegrins are attacking the fortifications of Sarajevo, Belgrade, which has been under fire so often, has not been bombarded for several days, probably as a guarantee of reciprocity of Semlin by the Serbians.

Skirmishes have occurred on the Anglo-German frontier in East Prussia as the result of German raids into the territory for which Russia has been fighting.

While the routine line in England is being seriously upset by the war, the regulations in many respects are becoming more stringent. An instance of this is to be found in the action of the authorities, in order to keep the army from winter clothing. The government has commandeered large quantities of woollen goods, and it is likely to be followed elsewhere.

VON KLUCK HAD PRESSED.

London, October 5.—The Daily Mail's correspondent in France reports fighting in and around Doullens, in the department of Nord, eighteen miles south of Lille, and considers that if the French press report is correct, the situation of the German General Von Kluck must be desperate.

London, October 5.—The correspondent says, "has had all the reinforcements which can be spared him, and yet finds himself outnumbered at every point. There are many indications from German prisoners, from French officers and from members of the British transport service, the combined testimony of whom it is difficult to disbelieve, that the German army is becoming demoralized. The German prisoners are dirty and hungry, and suffering from the effects of bad food, bad atmosphere and bad sanitation. Their equipment is too poor to make the lifting out of the dead an easy matter, and in some cases, no attempt has been made to remove bodies. Sanitary, as well as military, reasons are making the advance slow."

"The timidity of the German outposts, who rendered us much surprised, in strong evidence of their demoralization."

**ITALIAN SUBMARINE
ON SECRET MISSION**

London, October 5.—A dispatch to the Central News from Rome says: "A submarine boat, just completed in a private shipyard near Genoa, has disappeared and it is declared a naval mine laid near the Italian coast, which was in charge of her, has been used to sink the submarine."

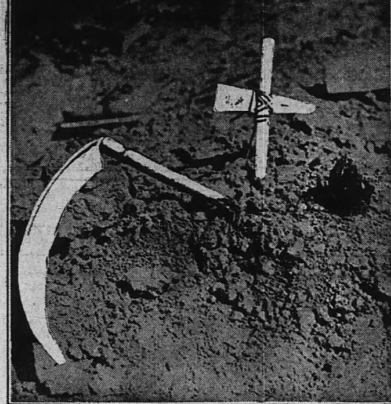

The submarine was out for trial, but did not return. A torpedo boat, Bellini, in a letter to the firm, would explain the disappearance of the submarine was ignorant of his plan.

240,000 PRISONERS CLAIMED BY GERMANS

Berlin, October 5.—The Germans now claim to have 240,000 Belgians, French, and 100,000 British prisoners. So far the prisoners have had no food, and the Germans are endeavoring to put them to work draining swamps and repairing roads.

SHALLOW GRAVE OF A SNIPER SHOWS ONE OF THE GRIM HORRORS OF WAR

It is not much—the grave of a man, a shallow trench, a few sticks of earth. Perhaps it was left so as a warning, perhaps it is the due to hurry and carelessness. The scene is emblematic of the Grim Reaper, and somewhere there may be a wife, mother, sister, waiting for the return of the man who will always be merely among the missing.

GRAVE OF A BELGIAN SNIPER.

It is not much—the grave of a man, a shallow trench, a few sticks of earth. Perhaps it was left so as a warning, perhaps it is the due to hurry and carelessness. The scene is emblematic of the Grim Reaper, and somewhere there may be a wife, mother, sister, waiting for the return of the man who will always be merely among the missing.

General Situation Is Stationary According to the French Report

Paris, October 5.—The following office by the French war office: "The general situation is stationary. On our left wing the action still continues."

"In the region of the Argonne and on the heights of the Meuse we have repulsed the attack of the enemy. The general situation is stationary. On our left wing the action still continues."

"Grand Duke Nicholas has addressed to the ministry of war, to be transmitted to General Joffre, a telegram announcing the victory of Augustow. General Joffre has sent, in his name, and in the name of the French army, his warmest congratulations to the commander-in-chief of the Russian army, for his brilliant victory."

Checked at certain points. The afternoon the war office issued the following statement: "On our left wing, to the north of the Oise, the battle continues with great violence. The result remains undecided. We have been obliged, at certain points, to yield ground. Along the remainder of the front there has been no change."

"In Russia, after a battle which lasted ten days, the German army, which was operating between the east and west Prussian frontiers and the Niemen river, has been driven back along the entire line and made its retreat, abandoning considerable quantities of war material. This army has evacuated completely the territory of the Russian province of Suwalki and Lomza."

When the long-drawn battle in the feeling in many quarters that decisive developments were imminent. Consequently, this afternoon's statement of the war office on the battle of the Argonne, unique in the history of battles.

Germans Are Claiming Progress In Battle on Their Right Wing

London, October 5.—A dispatch to Reuters' Telegram company from Berlin says: "The German army has advanced in the Argonne district, and the operations of Antwerp and in the eastern theater have been carried out according to plan and without delay."

Successes Claimed by Germans. Berlin, October 5.—(By wireless to Reuters.) "The German army has advanced in the Argonne district, and the operations of Antwerp and in the eastern theater have been carried out according to plan and without delay."

"In the western theater the battle is the right wing in the Argonne district is proceeding successfully. The operations of Antwerp and in the eastern theater have been carried out according to plan and without delay."

KAISER VERY CAREFUL NOT TO GET UNDER FIRE

Great Precaution Taken by German Ruler for His Safety.

London, October 5.—The Daily Call, a new London paper, issued today, prints an Amsterdam dispatch saying the German emperor has promised to order a special expedition, second-class of the Order of the Red Eagle, on the first German aviator to drop explosives on London.

Describing the life of the emperor at the headquarters of the German army, the correspondent says that when staying in France the emperor caused the chateau in which he lived to be fortified against aerial attacks by sacks of sand piled on the roof and by a protective shield of metal work. When the emperor moves his headquarters a small army of military engineers precedes him to carry out defensive measures.

Around the French chateau were a special bodyguard, a detachment outside the emperor's bedroom. Another in the hall, another at the front door and two more in the rooms above and beneath the sleeping room. Three unbroken lines of sentries surrounded the chateau. A whole battalion of infantry and several squadrons of cavalry were encamped in the adjoining park.

This chateau, according to the correspondent, was the scene of a battle between the emperor and a German aviator. The emperor was whirled away in a motor car, so that the emperor would not be endangered by a sudden retreat. A standard-bearer rode before him.

There were many more visits to the chateau and speeches in the afternoon. The emperor delivered nine speeches to the troops. The emperor was taken in the open air before the chateau. The emperor's food and drink were taken from the house and served by flunkies in gorgeous uniforms.

SERBIAN FORCES NEAR CAPITAL OF BOSNIA

Austrian Troops Reported to Be Suffering From Lack of Provisions.

Paris, October 5.—A Havas agency dispatch from Nish brings the following official statement from the Serbian war office: "Serbian troops in Bosnia have approached the fortifications protecting Sarajevo (the capital). The Austrians who occupy the heights on the right bank of the Drina are suffering a lack of provisions."

"On October 2, near Klenak, on the Sava, the Austrians attacked their own troops."

**SERBIANS BEATEN,
ACCORDING TO VIENNA.**

London, October 5.—A correspondent writes from Vienna that the following official report from the Serbian war office has been received: "The Serbian and Montenegrin forces invading east Bosnia have compelled the principal Austro-Hungarian forces to start in east Bosnia already have some of a successful result. The Austrians have been repulsed. They now are in the hands of the Serbian and Montenegrin forces. They are suffering from lack of provisions. They are suffering from lack of provisions. They are suffering from lack of provisions."

PUSHING ORGANIZATION OF U. S. RESERVE BANKS

Further Steps Taken to Hasten
Opening by the Re-
serve Board.

Washington, October 5.—Further steps to hasten the opening of the federal reserve banks were taken today by the federal reserve board, when it announced the action of the directors of the Federal Reserve Bank of San Francisco and the Federal Reserve Bank of New York.

They are: San Francisco, John P. McComb, president, and the directors; Claude Gatch, San Francisco deputy agent and vice chairman, and Chase Pembrey, San Francisco deputy agent and vice chairman.

San Francisco, John P. McComb, president, and the directors; Claude Gatch, San Francisco deputy agent and vice chairman, and Chase Pembrey, San Francisco deputy agent and vice chairman.

Under the law the secretary of the treasury has authority to set a day for opening, but it was understood that the question would be formally brought before the board. The board's action was not expected to be taken until the plan was supported by the board.

Pledges of gold to the \$100,000,000 fund pool to meet American obligations to Europe have come in so rapidly that the board is confident that the amount will be fully subscribed within a few days.

Designs for the new federal reserve notes have not all been approved, but those for the new five and ten are ready. It is the plan to issue about \$100,000,000 of the new five and ten twelve reserve banks to replace old one-dollar currency now in circulation.

Richmond, Va., October 5.—The federal reserve bank for the fifth, or Richmond, district was organized this morning by the election of George J. May as governor. James A. Moncreaf was appointed secretary. The bank is now ready to open for business just as soon as instructed to do so by the federal reserve board. Temporary banking quarters have been furnished, and a call will be sent at once throughout the district for reserves to be sent here.

New York, October 5.—Directors of the federal reserve board for the New York district, including Mr. J. P. Morgan, George Foster Peabody and Charles Warren, the government's representative, met here today and formally organized the board. Mr. Morgan was elected president of the board. Mr. Peabody was elected vice president. Mr. Warren was elected secretary.

POST OF N. Y. CHAIRMAN
DECLINED BY M'COMBS

New York, October 5.—William P. McComb, chairman of the national committee, late today definitely declined to have the same considered as democratic state chairman by the state committee, which is to meet tomorrow in Albany. His work in the congressional campaign, Mr. McComb said, curtailed his time that he could devote himself to the state election. He expressed the opinion that he would not be able to do so.

Washington, October 5.—The action of William P. McComb, chairman of the national committee, late today definitely declining the offer of the chairmanship of the New York state committee, was approved today by the federal reserve board.

It is a judgment, Mr. McComb has said, that the right thing would not be for the national chairman to have a campaign to conduct the campaign in a single state.

ANTI-TRUST MEASURE ADOPTED BY SENATE

Conference Report on Clayton
Bill Bitterly Fought by
Senator Reed.

Washington, October 5.—The administration anti-trust program was completed in the senate late today when the conference report on the Clayton anti-trust bill was agreed to, 31 to 24. The senate voted down a motion by Senator Reed of Missouri, to reconsider the bill to the conference.

Senator Reed's motion contemplated the reinstatement of criminal penalties for violations of sections specifying methods of competition declared unlawful.

The conference report now will go to the house where its adoption, with but brief debate, is expected.

Three democrats voted against the report—Senators Lane, Martin and Reed. Six democrats voted for the bill. The senate vote was 31 to 24.

Senator Reed was the only republican who voted against the motion. Senator Reed's motion was voted against by the senate.

As finally agreed to, the bill forbids the use of the word "trust" in the names of corporations and prohibits the use of the word "trust" in the names of corporations.

DECREASE IN SOCIETIES
TO CARE FOR CHILDREN

Atlantic City, N. J., October 5.—Human societies for the care of children have decreased in number during the past year, according to a report of the National Child Welfare Association. The number of children cared for by the societies last year was 19,164 as compared to 17,747 during the previous year.

G. A. H. Scott, secretary of the Illinois Humane society, reported the fact that many organizations for the welfare of children are inactive, while those that are active are struggling for the enforcement of the laws.

PUBLIC SCHOOL LAXITY
TO BLAME FOR CRIME

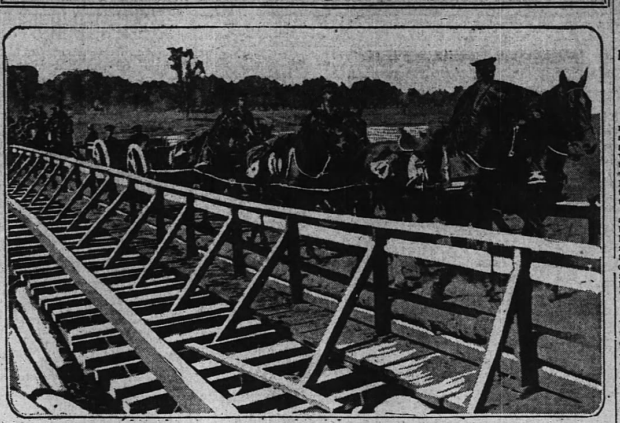

St. Paul, Minn., October 5.—Public school laxity is to blame for a large percentage of the crime in this country, declared speakers today before the convention of the National Prison association. Applauding greeted the statement.

"It is a statistical fact that 80 per cent of juvenile offenders begin delinquency in the public schools," said J. P. Peyton, superintendent of the Jeffersonville (Ind.) reformatory.

The central question of public schools, asserted Mr. Peyton, is to mold the character of the pupils and prepare them for honorable future.

N. B. Hudson, a farmer residing near Madison, Wis., raised a freak corn crop. The ears were eight feet long and weighed from one to three pounds. The corn was developed and large ears of corn originating from the same plant on the stalk.

Canadian Troops Starting for European War

CANADIAN TROOPS GOING TO ENGLAND.

Canada is sending thousands of war against Germany. The picture shows a detachment of artillery crossing troops to England for service in the war.

U. S. COPPER SHIPMENTS TO NEUTRAL COUNTRIES

Washington, October 5.—American copper shipments to neutral countries will not be molested by British ships, when covered by an understanding between shippers and consensuses that they are for domestic use only. This was made known here today after a conference between Secretary Bryan and Sir Cecil Spring-Rice, British ambassador.

The ambassador expressed the approval of the government of the suggestion of American copper exporters that cargoes en route to Holland, Italy or other non-belligerent countries be shipped under the restriction that they would be used in these countries and not exported to Germany.

Secretary Bryan at once set to work to obtain from Holland, Italy, Spain, Norway, Sweden and Switzerland guarantees that copper imported from the United States would not be re-exported. These guarantees will be accepted by Great Britain.

Senator Reed of Utah, who discussed the matter at the conference, said that the plan, which is similar to that already arranged with Holland with regard to foodstuffs.

Senator Reed stated that while it is premature to consider what relief measures should be adopted, information is being gathered in Europe of the extent of the distress among Jews and urges that organization throughout the country should hold themselves in readiness to co-operate in the work to be mapped out at the conference here.

STANLEY YOKUM LOST
TO CHARLEY WHITE

Kenosha, Wis., October 5.—Charley White, Chicago lightweight, easily had the best of a ten round boxing match here tonight with Stanley Yokum, of Denver, Colo.

Many Disturbances in City.

Macon, Ga., October 5.—(Special.)—The situation of what to do with the destitute people in Macon is one that is puzzling Mayor Bridges Smith, since the city makes no provision for relief of that kind. This morning the mayor was called on by twelve different groups of people who were seeking aid and all of whom were out of work.

It is noticeable that most of those who are applying for aid are people who have been in the city only a short time, coming here from other places. Many of them request transportation so that they can continue their journey, while others complain they are in need of food and clothing.

Some time ago Mayor Smith did a little figuring with the result that on many days it was shown that he lived at less than 10 per cent of his usual salary. The destitute people were referred to the city hall, where they were told of the lack of funds that the city had, and that they must make their own way.

WALKER IS CONFIRMED
UNITED STATES JUDGE

Washington, October 5.—The senate today confirmed the nomination of Richard W. Walker, of Huntsville, Ala., to the United States circuit judge for the fifth district.

COAL SUPPLIED LEIPZIG BY STEAMER MAZATLAN

Mazatlan Left San Francisco
With Cargo and Delivered
It to German Cruiser.

San Francisco, October 5.—The German cruiser Leipzig was loaded and supplied with Mazatlan from the cargo of the German freighter Mazatlan, which left here Saturday night. According to a story told today by G. D. Smith, director of the Mazatlan and Rear Admiral Ford, superintendent of the Twelfth United States naval district.

Smith said that the Leipzig took mail and supplies direct from the Mazatlan, but took on board the coal after it had been transferred from the Mazatlan to another vessel at Guaymas. Smith is the British subject. He was ordered to communicate with the Leipzig off the coast of Lower California, he said, but refused and wrecked the wireless apparatus of the freighter.

Without much correspondence, with Washington, the Mazatlan, with 900 tons of coal, was permitted to clear from San Francisco for Guaymas, August 11, under \$100,000 bond to deliver the coal as consigned.

Two days later, said Smith, Captain Frederick Jensen, the owner, who is a German reservist, a German officer called Zar, Hella, and one Gustave Traub, were taken on at San Pedro.

When I refused to communicate with the Leipzig, I was threatened with a beating. To make good my refusal, I was taken to the Leipzig and held there.

North of Magdalena Bay, however, we picked up the Leipzig and transferred mail and stores to her. The coal was carried to Guaymas, where it was transferred to the German steamship, Marica, which called on the Leipzig.

The British cruiser New Castle got wind of us and came out to intercept us. The Leipzig gave her the signal to stop.

The Mazatlan was formerly under the command of Rear Admiral Ford, who was a revolutionary in Mexico who was transferred to the Leipzig when he was captured and when the European war broke out.

The coal was carried south was said to be of the highest quality. It was taken to the Leipzig, but later was declared to be of inferior quality.

Steamer Alexandria Detained.

San Francisco, October 5.—The steamer Alexandria, formerly of the German navy, was detained here by a United States naval officer. The ship was carrying a large quantity of coal.

ENGLISH CHILDREN PLAY PROMINENT PART IN WAR

One Bishop Wants Little Ones
to Thank God Daily for
the British Navy.

London, October 5.—English children are playing a prominent part in the present war and manifest greater enthusiasm than many of their elders. The young men of a prominent English official recently told his governors that if God left the Kaiser get into Paris he would know there was no God, and that he would be a great help to the British navy. The young men of a prominent English official recently told his governors that if God left the Kaiser get into Paris he would know there was no God, and that he would be a great help to the British navy.

One prominent bishop recently advised that every child in England should be taught to thank God for every meal for the British navy, which has the power to bring the Kaiser to his knees.

The young men of a prominent English official recently told his governors that if God left the Kaiser get into Paris he would know there was no God, and that he would be a great help to the British navy.

A general movement has been inaugurated by the instruction of the English people as well as secondary schools. The English people as well as secondary schools.

THE PRODUCER'S REAL NEED.
The real need of the hour with the cotton producer is some method whereby he can meet his obligations. He must meet his obligations before he can meet theirs. When the farmer pays the merchant, the merchant can pay his bank and the bank can meet its obligations with its correspondents in Atlanta, New York or elsewhere.

President W. L. Walker, of the Citizens and Screen County bank, calls attention in a communication published today, to the fact that a plan to provide for the cancellation of debt has already been put in operation in his county. The bankers here have back of it as much as a thousand cotton counties. For the others, perhaps, are prepared to adopt this method which would mean a restoration of business activity throughout the south.

The cancelling of obligations would not only restore the credit of the farmer, the merchant and the banker, in the respective spheres, but would set the wheels of general business in rapid motion.

This is just the position The Constitution has taken since this crisis burst upon the south. One county's efforts are commendable, but the little effort made on the part of the counties, or even the states, is apparent.

Effective and uniform action in the solution of this problem, we have time and again pointed out, can come only from Washington. Congress has the power and can provide the means whereby, upon the safest security obtainable—cotton in the bonded warehouse—obligations may be met, credit restored and business activity renewed.

Congress has not done it, and apparently is not going to do it. The bankers here have been able to see, it is going to do anything else to relieve the situation.

Thrown wholly upon our own resources, each community is compelled to meet the crisis and find solution of the problem as best it can. Resulting this, however, and other counties are acting, are adopting and putting into execution the plans which seem best for them for the relief of the business troubles forced upon them.

The counties which have thus taken hold of their problems are showing a commendable spirit of enterprise and patriotism. They will work out their own salvation with such neighborly assistance as may come to them, with the lesson well learned that, regardless of what they have the right to demand and expect, they may hope for nothing from the government, which apparently haves its assisting hand alone for Wall Street.

OUR PRAYER FOR PEACE.

In cities and towns all over the United States the people assembled Sunday in response to President Wilson's peace prayer proclamation, and while songs of peace were sung, hearts of undoubted faith were raised in supplication for the end of the strife which has begun Europe's reversion to barren waste.

Fifteen thousand Atlantans, sought admission to the Auditorium-Armory to lend voice and petition to the almost universal appeal. It was a great meeting, one that put heart and yet it was but an incident in the observation of the day on which millions of Americans translated their heart-prayers for peace into action by assembling in more than thousands of meetings to petition by their presence.

It was a great day in America. Our millions of population have come to the

support of the president in his appeal for the termination of the bloody European conflict. Whether or not there is early accomplishment, this American attitude will prove a mighty and potent factor in the end of the war-impression. It will put, not only Americans, but those of other nations, to talking and thinking peace until it becomes, possibly, an irresistible world-force.

More than that, it was a wonderful demonstration of the American attitude toward war. There have been occasions when the United States could have taken up arms upon provocation greater than any now underlying the bloody European death struggle; but we have reached amicable solution of our troubles through businesslike diplomatic negotiations and have gone on building up instead of stopping to tear down.

We have pointed the way to other nations of the earth, and in Sunday's meetings we have put the voice of the people back of our example and appeal. Our prayers and our efforts may not end the war tomorrow, but their ultimate instrumental cannot be questioned; and we may well hope to become a primary factor in the final elimination of the arbitrament of the sword.

THE BEST CORN SHOW YET.

Georgia has set admirable example to the other states of the south in proposing and planning, in spite of the business crisis which the European war has forced upon us, the biggest and best corn show ever held in this state.

Not only has it almost internationally, for her annual corn shows of the recent past, made possible through the splendid work of the Atlanta Chamber of Commerce, it is planned this year, with the aid of the Atlanta Ad Men's club, to make the event one of the most important of the season.

The constitution is not responsible for advance payments to out-of-town local carriers, dealers or agents.

The addition of "hog and hominy" to the program, through the efforts of the Georgia National Hog Raisers' association, for the first time, Georgia boys who have shown their fathers how to grow corn are demonstrating to them also the interesting possibilities in hog raising; and we may say here the fattest hog the boy has grown by applying well established principles which outweighs anything father has ever produced.

Georgia farmers should long since have profited by the lesson the boys have taught them in producing an average of 80 bushels per acre of this staple crop. It is in that direction almost removes doubt that they will give them some pointers on hog raising that will prove well worth their investigation and application.

But the point we most stress is that if ever there was a time when a corn show was important, it is now. When a corn show was important, it is now. When a corn show was important, it is now.

Why not to Atlanta? Georgia farmers are more determined than ever to cut their cotton acreage next year and put more food crops. They have in many counties already gone to work upon this basis, as numerous dispatches to The Constitution demonstrates. Wheat and oats and other winter grains are now going into ground once given to cotton; corn will go into much more of it in the spring. Through hogs and cattle, grain will be translated into meat.

To clinch the argument there is nothing more forcible than the Georgia corn show. More the bigger and better, and Georgia will live it home in the future as she never lived before.

COME TO ATLANTA.

Thousands of fat, white and spring tourists are now wondering when to go, when they decide to go within the next five or six months to escape the inevitable rigors of the northern and "way down eastern" climate.

Why not to Atlanta? Europe's doors are closed; the plan of going abroad is no longer to be considered. Even the countries which are not involved in the war present no special attraction. And, at that, it might as well go to some place away from them as it was from France and Germany and England in August. If they are not at war they are all continually mobilizing, and military service is no respecter of persons, any more than it is of flags.

Americans who go away this season have got to go away at home. And as the season is one which demands migration toward the warmer climate, they will naturally come to Atlanta. Florida and the southern states, Texas and southern California will become the American Spain, Italy and southern France.

The Holland Letter

The two transactions in modern financing by the United States, each of which is with the most important in the history of the country, are the sale of the Panama Canal and the sale of the Panama Canal.

When the underwriting syndicate was organized in the fall of 1913, the credit of New York City was the presumption in the financial circles of the world.

The bargain which the city's finance officers made in the sale of the Panama Canal, provided for the issue of New York City bonds to the amount of \$100,000,000.

As it is impossible to make a list of the names of the syndicate members, it is impossible to make a list of the names of the syndicate members.

Some of the names of the syndicate members are: J. P. Morgan, K. F. Wallcut, and others.

Socialists Forget Wrongs While Germany is at War

A native of Vienna, Austria, now living in Atlanta, Georgia, is doing a good deal of work for the German cause.

This native Austrian is a convert to the American cause, and has time and time again, since the outbreak of European hostilities, in which his "Vaterland" is seriously injured, sought to secure passage across the Atlantic ocean that he might serve his country on the gory battlefield.

When the Austrian crown prince, Ferdinand, was assassinated by a Serbian, which set soon threw all Europe into bloody strife, Mr. Hecht was attending the derby at Berlin, and was in the city when the news of the assassination reached him.

Mr. Hecht translates an article from the German newspaper of northern Germany, the "Berliner Lokal-Anzeiger," which is in their political review, in a recent issue.

The translation in full follows: England, in its position, is in a very difficult position.
